81-0477a

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: Charles A. Briggs
Inspector General

Executive Registry
81-0477a

SUBJECT: DDA Action on OTS Recommendation 3 re
Safe and Healthful Working Environment

REFERENCE: DDA Memo to you dtd 3 August 1981; subject:
Additional Actions to be Taken on the Office
of Technical Services Inspection Recommenda-
tions

1. The Recommendation called for aggressive DDA pursuit of GSA to ensure for OTS a safe and healthful work environment. Harry certainly has pursued GSA vigorously on many fronts. This Office of Logistics Survey is on track. The proposed actions are responsive.

2. As with other DDA support activities, the safety and health subject cuts across several offices and is discussed in other inspection reports. The recent OMS Survey noted the establishment of an Environmental Health and Preventive Medicine Office position responsible, among other duties, for ensuring compliance with OSHA requirements and monitoring environmental health risks. Both the OMS Survey and the current OS Survey, in draft and being reviewed in the DDA, question the location of the Occupational Safety and Health Program in the Office of Security. [redacted]

STAT
STAT

[redacted] concerns require consultation with OMS. In fact, the OS inspection report will recommend that the DDA transfer the Safety Group.

3. I see no need for additional action on your part at this time concerning referenced DDA memo. I may suggest some overview statement on the general subject when I forward the OS inspection report to you.
